HEART

Support for chronic cardiac insufficiency

When the heart of the beloved dog weakens, the worry is great. But you can help your four-legged friend to feel better with a suitable feed. Josera Help Heart is a complete dietary feed that starts exactly here.

The sodium-reduced dry feed relieves the heart and supports heart health thanks to vitamins E and C as well as taurine and L-carnitine. The phytogetic complex contains rosemary, which is traditionally used in folk medicine to support the heart and circulation.

Thanks to the selected recipe, Josera Help Heart can support the disease of the heart and thus contribute to the dog's zest for life. The diseased heart is relieved by feeding management in order to maintain the quality of life as good as possible for the animal.

- Can support the well-being of a heart condition and relieve the heart thanks to the sodium-reduced recipe
- With vitamins E and C, taurine and L-carnitine to support heart health
- Phytogen Complex: Rosemary is traditionally used to support the heart
- The salmon oil provides anti-inflammatory omega-3 fatty acids

Analytical constituents:		
protein	%	19.8
fat content	%	9.4
crude fibre	%	2.4
crude ash	%	4.8
calcium	%	0.90
phosphorus	%	0.70
sodium	%	0.25
magnesium	%	0.11
potassium	%	0.50
taurine	mg	1,000
metabolisable energy per kg	MJ	15.0
metabolisable energy per kg	kcal	3,597

Additives: Nutritional additives per kg:		
vitamin A	I.E./kg	24,000
vitamin D3	I.E./kg	1,800
vitamin E	mg/kg	400
vitamin C (ascorbyl monophosphate calcium sodium salt)	mg/kg	200
vitamin B1	mg/kg	15
vitamin B2	mg/kg	20
vitamin B6	mg/kg	20
vitamin B12	mcg/kg	100

Additives: Nutritional additives per kg:		
calcium-D-pantothenate	mg/kg	50
niacin	mg/kg	90
folic acid	mg/kg	5
biotin	mcg/kg	1,000
L-carnitine	mg/kg	300
iron (iron(II) sulphate monohydrate)	mg/kg	220
zinc (zinc chelate of glycine, hydrate (solid))	mg/kg	180
manganese (manganese (II) oxide)	mg/kg	20
copper (copper(II) chelate of glycine hydrate (solid))	mg/kg	18
iodine (calcium iodate, anhydrous)	mg/kg	2.20
selenium (sodium selenite)	mg/kg	0.30

Technological additives:
Antioxidants: tocopherol extracts of natural origin.

Complete diet feed for adult dogs to support cardiac function in the case of chronic cardiac insufficiency.

Composition: maize; rice; dried poultry protein; barley; dried salmon protein; poultry fat; dried beet pulp (natural source of dietary fibre); hydrolysed animal protein; salmon oil; yeast; minerals; ground chicory root (natural source of inulin); oregano; ginger; rosemary; nettle; milk thistle; cranberry

Rosemary

Rosemary is traditionally used to support the heart and circulation. It has been cultivated in monastery gardens for centuries. Rosemary is also used to support the immune system.

Reduced sodium content

The recipe contains a balanced mineral content. In the process, a low sodium content ensures that the workload of the heart is reduced and the organ is relieved.

L-Carnitine and Taurine promote a healthy heart

By inactivating free radicals, taurine protects the heart. L-carnitine is important for heart tissue as well as the conversion of fat into energy, which can contribute to optimal weight control. The recipe also contains valuable antioxidants that counteract cell ageing.

Feeding recommendation:

Weight	inactive / older	normally active	active
5 kg	75 g	90 g	105 g
10 kg	125 g	150 g	170 g
20 kg	210 g	250 g	290 g
30 kg	285 g	340 g	395 g
40 kg	355 g	420 g	490 g
60 kg	480 g	570 g	660 g
80 kg	600 g	710 g	820 g

The recommended feed quantities are given per animal per day. Ensure that your pet always has access to fresh drinking water. It is recommended to offer several small meals of the diet per day, unless otherwise prescribed by the veterinarian. For chronic cardiac insufficiency: Recommended feeding duration initially up to 6 months. It is recommended that a veterinarian's opinion be sought before use or before extending the period of use.

Available in: 900 g; 10 kg
